BUILDING 5, NO 263, JIAHAO RD, NANXIANG TOWN, JIADING DISTRICT, SHANGHAI, CHINA

Basic Info.

Model NO.	HW-PME-001
Application Form	Tablet, Capsule
Application	Food, Health Care Products, Medicine, Cosmetics
State	Powder
Extract Source	Pueraria
Product Name	Pueraria Extract
Latin Name	Pueraria Lobata(Willd.)Ohwi
Appearance	Brown Powder
Microorganism	Qualified
Test Method	HPLC
Shelf Life	2 Years
Function	Antioxidant
Grade	Anti-Inflammatory
Transport Package	1kg/ Bag 25kg/Drum
Specification	40%Isoflavones/55%Puerarin or Customized
Trademark	Herbway
Origin	China
HS Code	1302199099

What is Pueraria Extract?

Pueraria Extract

is a brown powder extract extracted from the dried roots of the leguminous plant Kudzu. In addition to a large amount of starch, the main active components are isoflavone derivatives (puerarin, daidzein, daidzein, genistein). It has the effects of increasing cerebral and coronary arterial blood flow, reducing vascular resistance, contracting smooth muscle, lowering blood

sugar and antipyretic, etc. It is mainly used in the treatment of alcoholism, retinal arteriostasis and venous obstruction, sudden deafness, myocardial infarction, coronary heart disease, angina pectoris, hypertension, hyperlipidemia and other diseases.

What is the function of Pueraria Extract?

1. Antioxidant;
2. Anti-inflammatory;
3. Lower blood pressure;
4. Lower blood

sugar; 5. Promote liver health; 6. Boost immunity.

Application:

1. Pharmaceutical field: Pueraria root extract is often used in the manufacture of drugs and health products, such as auxiliary treatment drugs for cardiovascular and cerebrovascular diseases, lipid-lowering drugs, anti-tumor drugs, etc. In addition, pueraria root extract can also be used to make

cold medicine, cough medicine, digestive medicine and so on.

2. Food field: Pueraria root extract can be used as a natural food additive in the production of condiments, beverages, dairy products, pastries, etc., to increase the nutritional value and taste of products.

3. Cosmetics: Pueraria extract can be used in skin care products, with whitening, freckle removal, anti-inflammatory

, anti-aging, pore contraction and other effects. Such as creams, masks, lotions and other products.

4. Other uses: Pueraria root extract is also used in the field of feed, which can enhance the antioxidant capacity of animals and promote growth and development.
