100% Pure Natural Amygdalin 5%-98% Vitamin Vb17 CAS 29883-15-6 Bitter Almond Oil Semen Armeniacae Amarum Bitter Almond Extract

Our Product Introduction

Basic Information

- Place of Origin: china
- Brand Name: komesz
- Certification: HALAL
- Minimum Order Quantity: 20kg
- Price: negotiated
- Packaging Details: 5kg
- Delivery Time: 5-8weeks
- Payment Terms: L/C, T/T

Product Specification

- Shelf Life: 2 Years
- State: Powder
- Sample: Available
- Origin: China
- Highlight: **Vitamin Vb17 Bitter Almond Oil**, **CAS 29883-15-6 Bitter Almond Oil**, **100% Pure Natural Bitter Almond Oil**

BUILDING 5, NO 263, JIAHAO RD, NANXIANG TOWN, JIADING DISTRICT, SHANGHAI, CHINA

Basic Info.

Model NO.	/
Application	Lotion, Tablet, Capsule
State	Powder
Extract Source	Bitter Almond Extract
Product Name	Semen Armeniacae Amarum Extract
Active ingredient	98% Amygdalin
Extract Solvent	Water
Character	Brown
Storage Condition	Sealed in Cool and Dry Place, Guard Against Damp.
Trasport Method	by Air or by Sea.
Transport Package	25kg/Drum
Specification	5%/25%/50%/90%/98%
Trademark	/
Origin	China
HS Code	1302199099
Production Capacity	10000kg/Year

Product Description

Product Description

Product Description	Amygdalin is the main ingredient of bitter apricot seed extract, also known as laevomandelonitrile or laetrile, is isolated from the seeds of the tree Prunus dulcis, also known as bitter almonds. Since the early 1950s, a modified form of almond extract amygdalin has been promoted under the names laetrile and "Vitamin B17" as a cancer cure. In reality, neither amygdalin nor any derivative such as laetrile is in any sense a vitamin. Bitter apricot seed extract is the purified form of the compound amygdalin, which is found naturally in fruits and vegetables, particularly in the apricot pits and bitter almonds. It was first isolated in 1830 and was used as an anticancer agent in Russia as early as It is believed that laetrile relieves the pain of cancer. One theory is that cancer cells contain large quantities of the enzyme beta-glucosidase. This enzyme breaks the amygdalin down and releases cyanide, a toxic chemical that then kills cancer cells.
Function	1.mygdalin has the effect of anti-tumor , relieves cough and asthma, lowering blood sugar & blood lipids. 2.It also has a cosmetic effect, which can promote skin microcirculation, make the skin ruddy luster, eliminate pigmentation,dark spots, thus achieving the effect of freckle. 3.Widely used in pharmaceutical, food, cosmetics industry.
Application	Applied in pharmaceutical & healthcare field, amygdalin is used as medicine toanti-cancer and tumor; Applied in cosmetic field, amygdalin can eliminate of pigmentation, freckles, dark spots; Amygdalin also can be used as dietary supplement and food additiveto lose weight.
