Product Description

Agaricus Blazei Murill Extract with Ergothioneine

Premium mushroom extract powder containing ergothioneine, specifically formulated for nutraceutical food and medical applications.

Product Specifications

Model Number	Ergothioneine
Application Forms	Injection, Lotion, Suppository, Paste, Tablet, Capsule
Applications	Food, Health Care Products, Medicine
State	Powder
Extract Source	Agaricus Blazei Murill
Certificate	Halal
Shelf Life	2 Years
Color	Yellow to Yellow Brown Powder
Mesh Size	80 Mesh
Specifications	Adenosine 0.2%, Mannitol 7%
Packaging	25kg/Drum
Place of Origin	Shanghai, China
Production Capacity	50,000 tons Per Year
Samples	Available

Detailed Product Information

Product Name	Agaricus Blazei Murill Extract / Ergothioneine
Extraction Source	Agaricus blazei Murill
Specification	Ergothioneine 1%-2%
Appearance	Yellow to yellow brown powder
Mesh	80 mesh
Detection Method	HPLC
Packaging	25 kg/barrel, customizable packaging available
Storage Conditions	Sealed away from light, store in a cool, dry ventilated place

Product Description

Agaricus Blazei Murill Extract is derived from the medicinal mushroom Agaricus blazei Murill and represents a potent supplement known for its rich content of bioactive compounds. Our extraction process utilizes advanced techniques to ensure optimal purity and efficacy while preserving the beneficial components of this remarkable mushroom.

Key Functions & Benefits

- Rich in bioactive compounds including polysaccharides, beta-glucans, and antioxidants
- Supports healthy immune system response and overall well-being
- Enhances the body's natural defense mechanisms against external threats
- Promotes optimal cellular health and vitality
- Supports the body's natural detoxification processes

Applications

Agaricus Blazei Murill Extract is versatile and can be incorporated into various applications to harness its health-promoting qualities:

- Dietary supplements in capsule, tablet, or powder form
- Functional foods and beverages for enhanced nutritional value
- Nutraceutical formulations with immune-boosting benefits
- Regular consumption supports immune function and provides antioxidant support
