- Solubility: Water-soluble Or Oil-soluble Depending On Extract
- Highlight: **cool-stored traditional plant extracts, natural plant extracts for pharmaceuticals, plant extracts for personal care**

Traditional Plant Extracts

Our 10:1 Traditional Plant Extracts are carefully derived using advanced extraction techniques that preserve bioactive compounds, ensuring maximum potency and effectiveness. These natural extracts enhance immunity and provide therapeutic benefits suitable for pharmaceutical and personal care formulations.

Key Features

Product Name: Plant Extracts

Shelf Life: 24 months

Specification: 10:1

Solubility: Water-soluble or Oil-soluble

General Source: Polygala Tenuifolia Willd

Einecs Number: 204-680-1

Active Ingredients & Benefits

Flavonoids: Powerful antioxidants protecting cells from oxidative stress and inflammation

Alkaloids: Contribute to immune modulation and various pharmacological effects

Tannins: Provide antimicrobial properties for healthy skin microbiome

Polyphenols: Support overall cellular health and immune function

Applications

Our Traditional Plant Extracts are widely used in pharmaceutical, nutraceutical, and cosmetic industries. They serve as essential raw materials for natural medicines, skincare products, functional foods, and dietary supplements aimed at promoting cardiovascular health and overall wellness.

Customization Options

We offer customized Botanical Plant Extracts with COA SGS certification. Customization includes flexible specifications, packaging options (1kg aluminum bags or 25kg carton drums), and negotiable pricing with minimum order quantity of 1kg.

Packaging & Shipping

Products are sealed in airtight, tamper-proof containers using eco-friendly materials. We use secure, insulated packaging to protect from temperature fluctuations during transit. All orders include tracking information and are processed promptly via reliable carriers.
