Product Description

Premium Botanical Plant Extracts

Our premium botanical plant extracts are derived from Polygala Tenuifolia Willd, a traditional herb valued for its diverse health benefits. Carefully processed to preserve natural potency and efficacy, these extracts are ideal for pharmaceutical, cosmetic, and nutraceutical applications.

Key Features

- Product Name: Plant Extracts
- Specification: 10:1
- Appearance: Colorless Acicular Crystal
- Effect: Immunity Enhancement
- Odor: Characteristic Plant Aroma
- Taste: Bitter
- Rich in bioactive compounds including Flavonoids, Alkaloids, Tannins, and Polyphenols
- Available in water-soluble and oil-soluble forms
- 24-month shelf life with proper storage
- Einecs number: 204-680-1 for regulatory compliance

Active Compounds & Benefits

These traditional plant extracts contain a comprehensive profile of naturally occurring compounds known for their therapeutic properties:

Compound	Primary Benefits
Flavonoids	Antioxidant protection against oxidative stress
Alkaloids	Therapeutic effects supporting overall wellness
Tannins & Polyphenols	Enhanced ability to maintain health and vitality

Applications

Skincare & Cosmetics

Versatile formulation options for creams, lotions, serums, and masks. Provides nourishing benefits, promotes healthy complexion, and offers antioxidant and anti-inflammatory effects suitable for sensitive skin formulations.

Food & Nutraceuticals

Ideal for dietary supplements, functional foods, and beverages. Enhances both flavor and nutritional value while providing natural wellness support for health-conscious consumers.
